- e) All the OPD rooms are stuffy, poorly ventilated and low height. No facility is provided for hand washing and wash basin.
- f) Clinical laboratory does not follow BMW protocol, expired serological kits were kept in huge numbers. There were two lab technicians but on physical verification one person is totally changed.
- g) There are two buildings in the hospital block and none of them have lift and emergency Exit. The ramp facility for the disabled and aged patient have not been implemented in Hospital.
- h) The cleaning and hygiene and sanitation of the entire hospital is not up to the mark.
- i) There is no AERB certification of the radiology unit of the attached hospital.
